

## DIAVOLO

Presented by Scottsdale Arts

### ————— More Information —————

DIAVOLO | Architecture in Motion, has been applauded internationally for its ability to display surprising movement and entertain audiences with a new art form. The mission of this performance is to showcase the transformative style of architecture in motion, by allowing dancers to explore the relationship and interaction between the human body and its architectural environment. It will leave the audience with an understanding on how we are being affected not only socially, but physically and emotionally by the objects surrounding us.

### ————— About Diavolo —————

Diavolo has been flipping, leaping, and channeling emotions into physical displays of strength and vulnerability for more than 25 years. The renowned Los Angeles-based dance company was founded in 1992 by Artistic Director Jacques Heim, a man who combined his academic background in theater, film, and dance with a passion for architecture. Diavolo combines elements of contemporary dance with martial arts, acrobatics, gymnastics, and hip-hop. The crew of dancers, designers and engineers defy gravity by displaying surprising movement against a backdrop of elaborately designed space, all while entertaining audiences with their fascinating performances.
